Website Accessibility Statement for entities referred to in Article 3, paragraph 1-bis, of Law No. 4 of 9 January 2004

Cimalux SA, is committed to making its website accessible, in accordance with Law No. 4 of 9 January 2004.
This accessibility statement applies to the website https://www.cimalux.lu/

Compliance status

Partially compliant

This website is partially compliant with the requirements set out in Annex A of the UNI CEI EN 301549 standard, due to the cases of non-compliance listed below.

Non-accessible content

The content listed below is not accessible due to non-compliance with accessibility regulations:

- C.9.1.2.1 Audio-only and video-only (prerecorded): On some pages, during navigation, issues related to this criterion were found: lack of captions or transcripts in videos.
- C.9.1.4.3 – Minimum contrast: The visual presentation of text and images of text does not always have the minimum contrast ratio required, except for exceptions provided for by the regulations.
- C.9.2.1.1 – The submenus of the main navigation menu cannot be opened via keyboard: the navigation functionality is therefore partially non-operable for users who do not use a mouse. Since the main navigation menu is present on all pages of the site, the non-conformity is systemic in nature and affects the entire site.
- C.9.2.4.3 – The tabbing order (focus) of some links does not follow a logical sequence consistent with the visual presentation order of the content, resulting in a reversed order compared to what is expected during keyboard navigation. The issue was found in the header of all pages of the site, therefore the non-conformity is systemic in nature.C.9.2.4.4 – Link purpose (in context): The purpose of some links cannot be determined from the link text alone, or from the link text together with adjacent content.
- C.9.2.5.8 - Some clickable elements do not meet the minimum required size of 24x24px.
- C.9.4.1.2 – Name, role, value: In some cases, for user interface components (including: form elements, links, and components generated by scripts…), the name, role, states, properties, and values are not correctly set, or the user and their assistive technologies are not notified when these change.

Note: the non-conformities reported above are subject to analysis and planning of corrective actions aimed at the progressive improvement of the accessibility of the site.

Preparation of the accessibility statement

This statement was prepared on 14/09/2026.

The assessment was carried out by third parties through automated tests and manual checks aimed at verifying compliance with accessibility requirements (cf. Article 3, paragraph 1, of Commission Implementing Decision (EU) 2018/1523)

Feedback and contact details

If you wish to contact the owner of the website, please write to the email address info@cimalux.lu indicating "Accessibility" in the subject line and providing the following information:

- the URL of the web page in question
- a description of the problem encountered
- tools used: operating system, browser, assistive technologies

How to submit reports to AgID

In the event of an unsatisfactory response, or no response within thirty days of the notification or request, the person concerned may submit a report using the following link: https://www.agid.gov.it/it/design-servizi/accessibilita/linee-guida-accessibilita-privati

Information about the website

1. The publication date of the *website address*: 24/07/2018
2. Usability tests were carried out: no
3. CMS used for the website: Liferay
